

The Federal Communications Commission

Dear The Federal Communications Commission,

Please reject the flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service too expensive.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. This is unfair!

My infrequent necessary personal use for safety and security reasons should not be taxed the same as business calls that generate profits. Please reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Eugene Schafranek
